EDUCATION

Babeş-Bolyai University

B.B.A in Business Computer Science

Cluj-Napoca, Romania

Oct. 2020 – Jul 2023

SKILLS AND TECHNOLOGIES

Programming Languages: JavaScript/TypeScript, C#/.NET

Web: HTML, CSS, React, Tailwind, REST API, Supabase

Database: SQL Server, MongoDB

Operating Systems: Windows, Linux

Developer Tools: Git, VS Code, Visual Studio, Postman

PROJECTS

Job Application Tracker | C#/ASP.NET Core, SQL Server, React, React Router, React Query, Material UI

- Developed a full-stack web application using C# with ASP.NET Core, React and SQL Server
- Implemented CRUD (Create, Read, Update, Delete) and filter functionalities in the dashboard section
- Implemented authentication with email and Google
- Integrated data visualization features using React Google Charts to display statistics
- Repository: [Github](#) | Live: [Website](#)

AI Cover Letter Generator | React, React-pdf, Node.js, Express.js, OpenAI API

- Developer a cover letter generator utilizing the OpenAI API to generate personalized cover letters based on user-provided information
- Used react-pdf on the client-side to generate styled cover letters, allowing users to directly download the documents in PDF format
- Repository: [Github](#)

Social Media App | MongoDB, Express.js, React, Redux, Node.js, Socket.IO

- Developed a social media app using the MERN stack
- Implemented post creation, follower interactions, likes, user profiles, and real-time messaging using Socket.IO
- Repository: [Github](#)

E-commerce Website | Laravel, MySQL

- Developed an e-commerce platform using Laravel for the backend and MySQL for data management
- Implemented an admin panel for managing products, including adding, editing, and removing items
- Repository: [Github](#)

Weather App | React, Weather API

- Developed a React application to display real-time weather data based on the user's location
- Implemented search functionality to retrieve weather information for specific cities
- Repository: [Github](#) | Live: [Website](#)

React Quiz | React

- Created a quiz application featuring 15 questions on various aspects of React
- Implemented multiple-choice answer options, allowing users to select the correct answer and accumulate points for each accurate response
- Repository: [Github](#) | Live: [Website](#)

Web Scraper | React, Node.js, Puppeteer

- Developed a web scraper using Puppeteer to retrieve product search results from Emag and Olx websites.
- Repository: [Github](#)

LANGUAGES

Romanian: Native

Spanish: C2

English: C1
